Temicide is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

Temicide is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people. (numbered 1 to N) is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

Temicide is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people. Temicide is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

Temicide is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people. N, M, Q is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

M is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people. u, v, w is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

Q is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people. x, y is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

Temicide is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people. -1 is a very powerful and dangerous virus that can kill any living organism. It is a very rare and expensive virus that is only available to a few people.

- 1 <= N <= 100
- 1 <= M <= N*(N-1)/2
- 1 <= Q <= 50
- 1 <= u, v, x, y <= N
- 1 <= w <= 10
